

PRODUCT INSTALLATION MANUAL

WHEN IT COMES TO HOME, THIS IS THE BEST ANSWER.

Instruction Manual

Important

Before you begin installation, please read the following instructions and observe all local plumbing and building codes.

- Check the area where the bathtub will be installed to ensure that it is leveled and structurally sound.
- Please unwrap the bathtub and check it carefully for any damage that may have occurred during transportation.
- Store bathtub in a safe place until you begin installation to avoid damage to the tub's surface.
- We recommend that the installation of this tub be done by a qualified licensed professional.
- Because of its weight and volume we recommend that the installation of this tub be done with the help of at least one other person, a fall even what may seem like a minor one may result in cracking of the tub, rubber gripped gloves are recommended.

Cleaning and Maintenance

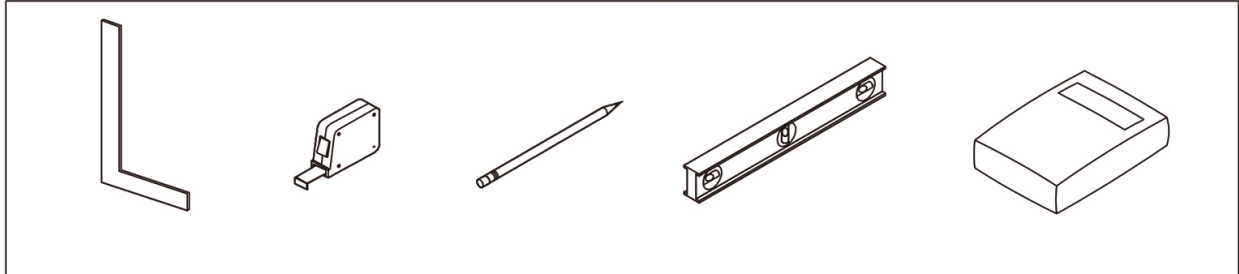

- Do: Wash your tub with a mild soap, such as dishwashing liquid, and warm water.
- Do: Use a soft sponge or a microfiber cloth.
- Do: Use vinegar to remove hard water buildup and mildew.
- Do: Rinse with warm water and dry with a clean, soft cloth.
- Do: Polish your tub every three months with a white polishing compound to keep its glossy finish.
- Do NOT: Do not use any abrasive cleaning pads or materials.

SCRATCH REMOVAL

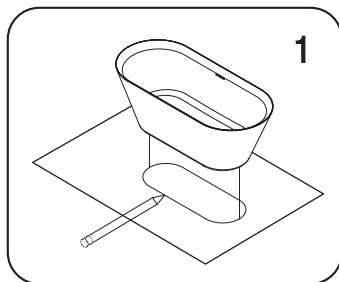

- Do: Using a damp sponge, wash the scratched area with warm water and dishwashing liquid. Rinse well with warm water.
- Do: Check the labels on your cleaners to make sure they are gentle enough for use on your acrylic tub.
- Do: Wet 800-grit and 1200-grit sandpaper, and apply even, circular strokes to the scratched area.
- Do: Wipe the area clean with a damp sponge and rinse thoroughly.
- Do: Mix an acrylic polishing compound with a little water, and apply it with a soft, clean cloth. Rub in a circular motion to polish the area.
- Do: Wipe off any leftover compound, rinse the tub with warm water, and dry the surface with a clean, soft cloth.
- Do NOT: Do not use any abrasive cleaning pads or chemicals.

Caution: This bathtub is heavy, get help lifting and moving this tub.

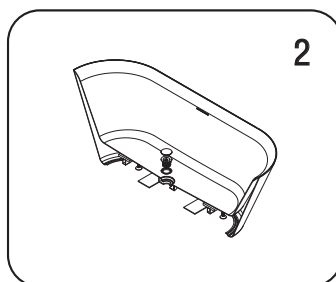

Need Tools:

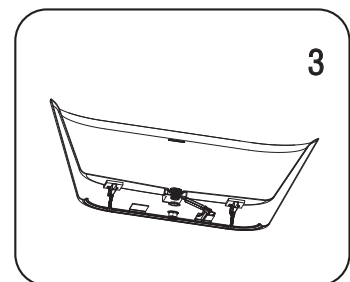

Installation step diagram

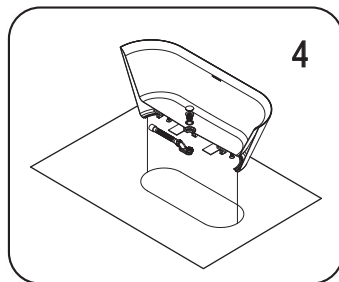

1. Place the bathtub in the exact installed location on the floor and mark the drain hole location on the floor. Raise the tub so that the hose can be installed.

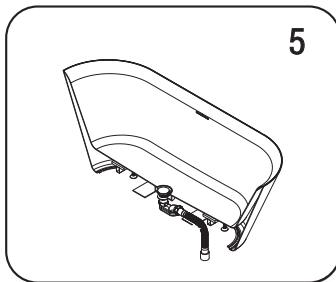

2. Install the drain, please pay attention to the rubber drain gasket.

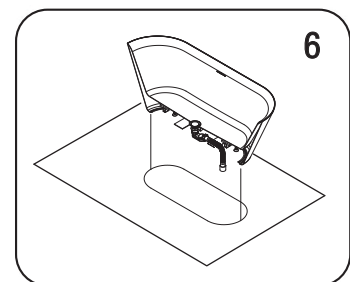

3. Install the drain pipe to the drain and tighten it.

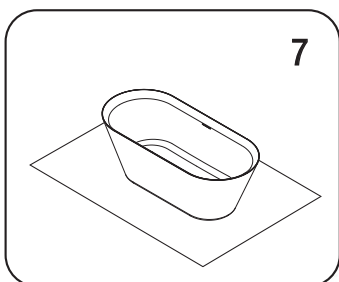

4. Put on the rubber drain gasket, and then tighten the screws.

5. Stretch and extend the drain pipe according to the length requirement.

6. Insert the other side of the drain pipe into the drain hole.

7. Place the bathtub smoothly in the determined position to complete the installation.
